LIST OF EGYPTIAN INSECTS

IN THE

COLLECTION OF THE MINISTRY OF AGRICULTURE,

BY

G. STOREY, B.A., F.E.S.,

ENTOMOLOGIST TO THE MINISTRY OF AGRICULTURE.

C.R.C.

*(Submitted for printing on March 12, 1916.)*

CAIRO.  
GOVERNMENT PRESS.

To be obtained, either directly or through any Bookseller,  
from the GOVERNMENT PRESS, Bulak, and from the SALE-ROOM,  
Old Ismailia Palace, Sharia Qasr el Aini.

1916.

PRICE: P.T. 10.

# ORGANIZATION OF THE MINISTRY OF AGRICULTURE, CAIRO, EGYPT

Minister .....  
Under-Secretary of State .....  
Consulting-Agriculturist .....

Inspector-General .....

H.E. Ahmed Helmy Pasha.

J. Haines.

G. C. Dudgeon, F.E.S., Vice-President of the International Association of Tropical Agriculture, Correspondent of the International Institute of Agriculture, Rome, etc.

A. T. McKillop.

## PROVINCIAL INSPECTORS.

W. Cartwright, M.A.  
T. L. Smith.  
J. Wright.  
R. W. Brigstocke.

J. D. Shepherd.  
H. M. Mead.  
C. A. Williams.  
T. E. Bayne-Jardine.

Ibrahim Bey Fahmy.  
Daoud Eff. Fat'h'i.  
Mohammed Eff. Kamel.  
Mohammed Eff. Osman.

## ADMINISTRATIVE AND STATISTICAL SERVICE

Director .....

Sadik Bey Henein.

## ENTOMOLOGICAL SECTION.

Director .....

Entomologists .....

L. H. Gough, Ph.D., F.E.S.  
Gilbert Storey, B.A., F.E.S.  
E. W. Adair, B.A., F.E.S.

## HORTICULTURAL SECTION.

Director .....

Assistant-Director .....

Superintendent .....

T. W. Brown.  
F. C. Walsingham.  
G. S. Crouch.

## BOTANICAL AND MYCOLOGICAL SECTION, GIZA.

(Cotton Breeding Farm at Giza.)

Botanist .....

B. G. C. Bolland, B.A.

## CHEMICAL LABORATORY.

Chemist .....

F. Hughes, F.C.S.

## COTTON SEED DISTRIBUTION.

Director .....

A. S. Merton.

## BUREAU OF COMMERCIAL INTELLIGENCE.

Directed by the Consulting-Agriculturist.

## VETERINARY SERVICE.

Director .....

W. Littlewood, M.R.C.V.S. Egyptian Government Delegate,  
International Quarantine Board, Egypt.

Pathologist .....

F. E. Mason, M.R.C.V.S.

Veterinary Inspectors .....

H. Cooper, M.R.C.V.S.

H. Mason, M.R.C.V.S.

E. de R. Gordon, M.R.C.V.S.

F. W. Trydell, M.R.C.V.S.

## SCHOOL OF VETERINARY MEDICINE.

Principal .....

D. S. Rabagliati, B.Sc., Agric. (Edin.), M.R.C.V.S.

## HIGHER SCHOOL OF AGRICULTURE, GIZA.

Director .....

Ernest Shearer, M.A., B.Sc.

Lecturer, Chem. and Agric. Chem. ....

G. Burns, B.Sc.

Lecturer in Physics .....

J. W. McPherson, B.A., A.R.C.S.

Lecturer in Botany .....

J. R. Davidson, M.A., B.Sc.

Lecturer in Agriculture .....

Alphonse M. Greiss.

## PREFACE.

---

The formation of a representative collection of the insect fauna of a country is not as a rule considered to be the work of economic entomologists. This is due to the fact that in most countries the fauna has generally been fairly thoroughly worked up by amateurs and a good public reference collection in a museum is available for the use of the economic entomologist. In Egypt, however, at the time of the creation of the Department of Agriculture, there was no such public collection, and the only works devoted to the insects of Egypt alone, apart from a number of more or less incomplete lists without descriptions, were three brief memoirs published by the "Société Entomologique d'Egypte." In view of these circumstances the collection, of which the ensuing pages contain a list of the hitherto identified species, has been brought together in the course of the past four years with a view not so much to adding to the systematic knowledge of the fauna of the country as to assisting in economic work.

A well classified and identified collection is always essential as the basis for both economic and biological research, since without having a name for an insect by which it can always be recognized, it is practically impossible either to benefit from the knowledge that other workers have obtained about it or to pass on to them the knowledge that one obtains oneself. Of course, in the making of a large collection, large numbers of species of no importance to the agriculturist are sure to be dealt with. Of the 154 families mentioned in the following list, however, about 100 include species of economic interest, and it is always useful to know something about the relatives of a dangerous or a useful insect. Again, it is often almost as necessary to be able to say definitely that a certain insect is not, and is not likely to become, of economic importance as to be able to say that

another is. And this can only be done by having a fairly complete knowledge of the insects of the country.

One of the most important reasons for working up the fauna, however, is in connection with the importation of insect pests. For instance, Durrant, writing on "Tineina bred from Cotton Bolls" in the "Bulletin of Entomological Research," August 1912, upholds the idea that the pink boll worm was imported into India from Egypt, the exact reverse of the actual fact, and the information which was then available led Dudgeon, in his article on "The Pink Boll Worm" in the "Agricultural Journal of Egypt," 1912, to express the opinion that it had occurred in Egypt for many years, whereas it is now fairly certain that it has been imported between 1903 and 1910. Neither of these mistakes would have been made if the Lepidoptera of the country had previously been properly worked up. If the pink boll worm had been discovered in the original consignments of Indian cotton which brought it to the country, nothing would have been done to prevent its entry if such opinions as the above were possible, whereas if the distribution and history of the pink boll worm had been known as it is now, steps might very easily have been taken to prevent the calamity that the importation of this pest has proved to be. On the other hand, if the fauna of the country is not properly known, much trouble and expense may be spent on trying to keep out of the country an insect which is a dangerous pest elsewhere, but which as a matter of fact may be already present, occurring in small numbers only, being kept under control by an unfavourable climate or other natural agents.

For much assistance in the identification of the species in the following list we must express our gratitude particularly to the Imperial Bureau of Entomology and also to the following specialists:—

Orthoptera : La Banne.

Hymenoptera : R. du Buysson, G. Meade-Waldo, Rev. F. D. Morice, C. Morley, R. E. Turner, Prof. Gy. Szépligeti.

Coleoptera : Several local entomologists, particularly G. Ferrante and A. Alfieri.

Lepidoptera : J. H. Durrant, P. P. Graves.

Thysanoptera : C. B. Williams.

Diptera : Prof. Becker.

Rhynchota : W. L. Distant, A. L. Montandon, Prof. R. Newstead, Prof. Van Schouteden.

Many other insects have been identified with the aid of the available literature, amongst which may be mentioned :—

- ANDRÉ, ED. ... Spécies des Hyménoptères d'Europe et d'Algérie.

ANDRÉ, ERN. ... Mémoires de la Société Entomologique d'Egypte—  
Mutillidae.

DU BUYSSEN... Mémoires de la Société Entomologique d'Egypte—  
Chrysidae.

FRIESE ... ... Die Bienen Europa's.

INNES ... ... Mémoires de la Société Entomologique d'Egypte—  
Orthoptera, Part I.

KLUG ... ... Symbolæ Physicæ.

LETHIERRY and  
SEVERIN... Catalogue Général d'Hémiptères.

NEWSTEAD ... Monograph of the British Coccoïdæ.

SAVIGNY ... Figures dans la Description de l'Egypte.

SCHMIEDEKNECHT Opuscula Ichneumonologica.

SEITZ ... ... Macrolepidoptera of the Palaearctic Region.

THEOBALD ... Monograph of the Culicidæ of the World.

WYTSMAN and  
OTHERS ... Genera Insectorum.

MINISTRY OF AGRICULTURE, EGYPT.

Bulletin No. 5.

(ENTOMOLOGICAL SECTION.)

LIST OF EGYPTIAN INSECTS IN THE COLLECTION  
OF THE MINISTRY OF AGRICULTURE.

ORTHOPTERA.

FORFICULIDÆ.

**Labidura riparia**, PALL.

Kharga Oasis, Helwân, Ma'âdi, Giza.  
Port Said.  
March to October.

**Labia minor**, L.

Ma'âdi, Giza, El Qalag, Khanka.  
March to October.

**Forficula (?) lucasi**, H. DOHRN.

Ma'âdi.

BLATTIDÆ.

**Phyllodromia germanica**, L.

Ma'âdi, Heliopolis, Ma'mûra.  
All the year.

**Phyllodromia supellectilium**, SERV.

Abundant everywhere.  
All the year.

**Phyllodromia treitiana**, WERNER.

Armant, Ma'âdi, Shûbra.  
January.

**Periplaneta americana**, L.

Minia, Ma'âdi, Cairo.  
All the year.

**Periplaneta (?) tartara**, SAUSS.

Ma'âdi.  
May to August.

**Stylopyga orientalis**, L.

Common everywhere.  
All the year.

**Leucophæa surinamensis**, F.

Cairo.

March.

**Heterogamia ægyptiaca**, L.

Ma'âdi, Cairo, Zagazig, Alexandria.  
February to July.

**Heterogamia ursina**, BURM.

Ma'sâra, Giza, Abu Matânia, Edsîna.  
All the year.

MANTIDÆ.

**Eremiaphila anubis**, LEF.

Ma'âdi, Khanka.  
February to July.

**Eremiaphila khamsin**, LEF.

Maidûm, Wâdi Höf, Ma'âdi, Old  
Suez Road, Mariût.  
February to June.

**Eremiaphila sabulosa**, SAUSS.

Tel el Kebîr.  
February.

**Eremiaphila savignyi**, LEF.

Ma'âdi.  
February to July.

**Eremiaphila typhon**, LEF.

Ma'âdi.  
July.

**Heteronytarsus ægyptiacus**, LEF

Kharga Oasis.  
February.

<b>Sphodromantis bioculata</b> , BURM.
Common everywhere.
All the year.
<b>Mantis religiosa</b> , L.
Ma'âdi.
All the year.
<b>Miomantis savignyi</b> , SAUSS.
Fayûm, Ma'âdi, Cairo.
All the year.
<b>Iris oratoria</b> , L.
Ma'âdi, Mariût.
October to December.
<b>Fischeria baetica</b> , RAMB.
Cairo, Khanka.
May.
<b>Empusa egena</b> , CHARP.
Ma'âdi, Cairo.
May to September.
<b>Blepharis mendica</b> , F.
Ma'âdi, Cairo, Abu Matânia.
March to July.
<b>Ameles ægyptiaca</b> , WERNER.
Wâdi Höf.
November to March.

GRYLLIDÆ.

<b>Gryllotalpa vulgaris</b> , LATR.
Abundant everywhere.
All the year.
Var. <b>cophtha</b> , DE HAAN.
Minia and Cairo.
<b>Tridactylus variegatus</b> , LATR.
Girga, Tura, Ma'âdi, 'Ezbet el Nakhl.
April to September.
<b>Gryllus bimaculatus</b> , DE GEER.
Common everywhere.
All the year.
<b>Gryllus burdigalensis</b> , LATR.
Qena, Assiût, Gîza, Ma'âdi, Alfia,
Mina el Qamh.
All the year.
<b>Gryllus campestris</b> , L.
Qena.
June.

<b>Gryllus domesticus</b> , L.
Abundant everywhere.
All the year.
<b>Oecanthus pellucens</b> , SCOP.
Sheikh Fadl, Maghâgha, Ma'âdi, Alfia.
June to November.
Three spp. unidentified.
LOCUSTIDÆ.
<b>Phaneroptera minima</b> , BR.
Ma'âdi, Nawa, Edfina.
July to October.
<b>Diogena fausta</b> , BURM.
Cairo.
<b>Xiphidium æthiopicum</b> , THBG.
Faraskûr, Edfina.
September to October.
<b>Conocephalus mandibularis</b> , CHARP.
Ma'âdi, Alfia, Mariût.
July to October.
<b>Metrioptera intermedia</b> , SERV.
Fayûm, Mansurâ.
April and May.
ACRIDIDÆ.
<b>Paratettix meridionalis</b> , RAMB.
Widely distributed.
All the year.
<b>Tryxalis unguiculata</b> , RAMB.
Common everywhere.
All the year.
<b>Tryxalis turrita</b> , L.
Ma'âdi, Sidi Ghâzi, Faraskûr.
July to November.
<b>Oxycoryphus compressicornis</b> , LATR.
Abundant everywhere.
All the year.
<b>Duronia (?) fracta</b> , KRAUSS.
Fayûm, Suez, Moqattam Hills, Marg,
Râs el Bar.
January to July.
<b>Ochrilidia tibialis</b> , FIEB.
Ma'sâra, Ma'âdi, 'Ezbet el Nakhl,
Suez, Abu Qir.
March to July.

<b>Stauronotus(?) genei</b> , OCŞK.	<b>Oedipoda graticosa</b> , SERV.
Mariût.	Mariût, Abu Qir.
May.	May to November.
<b>Epacromia strepens</b> , LATR.	<b>Pachytylus danicus</b> , L.
Ma'âdi, Giza, Râs el Khalig.	Common everywhere.
All the year.	All the year.
<b>Epacromia thalassina</b> , F.	<b>Eremobia (?) carinata</b> , F.
Abundant everywhere.	Wâdi Hôf, Heliopolis.
Throughout the year.	April and September.
<b>Aelopus</b> probably n. sp.	<b>Tmethis cisti</b> , F.
Dakhla Oasis.	Mariût, Mex, Abu Qir.
<b>Sphingonotus cæruleans</b> , L.	May and June.
Widely distributed	
March to November.	
<b>Sphingonotus azurescens</b> , RAMB.	<b>Pyrgomorpha gyulloides</b> , LATR.
Baltim, Abu Qir, Mariût.	Common everywhere.
May to July.	All the year.
<b>Sphingonotus (?) lameerei</b> , FINOT.	<b>Chrotogonus lugubris</b> , BLANCH.
Ma'sâra.	Abundant everywhere.
April to July.	All the year.
<b>Sphingonotus octofasciatus</b> , SERV.	<b>Chrotogonus scudderii</b> , BOL.
Ma'âdi.	Fayûm, Saqqâra, Ma'âdi, Suez.
September.	February to July.
<b>Sphingonotus savignyi</b> , SAUSS.	<b>Poecilocerus bufonius</b> , KLUG.
Mazghûna, Wâdi Hôf, Ma'âdi, Heliopolis.	Wâdi Hôf.
May to September.	April.
<b>Sphingonotus niloticus</b> , SAUSS.	<b>Pamphagus zebratus</b> , BRUNN.
Helwân, Ma'sâra, Ma'âdi, Heliopolis,	Old Suez Road, Mariût.
Khanka.	April and November.
April to October.	
<b>Var. picta</b> , WERNER.	<b>Dericorys albidula</b> , SERV.
Ma'sâra.	Ma'sâra, Old Suez Road.
<b>Leptopternis rhamses</b> , SAUSS.	April.
Mazghûna.	
May.	
<b>Leptosciurus linearis</b> , BURM.	<b>Dericorys (?) millieri</b> , BONNET and FINOT.
Ma'sâra, Shûbra, Heliopolis.	Râs el Bar.
March to October.	July.
<b>Acrotylus patruelis</b> , STURM.	<b>Opsomala cylindrica</b> , MARSH.
Abundant everywhere.	Suez.
All the year.	July.
	<b>Acridium aegyptium</b> , L.
	Abundant everywhere.
	All the year.
	<b>Schistocerca peregrina</b> , OLIV.
	Abundant everywhere, some years.

<b>Caloptenus italicus</b> , L.	<b>Thisoicetrus (?) adspersus</b> , REDT.
Maghâgha, Fayûm, Barrage, Kafîr el Sheikh.	Sidi Ghâzi.
May to July.	November.
<b>Thisoicetrus littoralis</b> , RAMB.	<b>Euprepocnemis plorans</b> , CHARP.
Abundant everywhere.	Abundant everywhere.
All the year.	All the year.

## NEUROPTERA.

(*Sensu lato.*)

	MALLOPHAGA.
<b>Goniocotes compar</b> , NITSCH.	<b>Onychogomphus pumilio</b> , RAMB.
Ma'âdi.	Widely distributed.
<b>Lipeurus baculus</b> , NITSCH.	May to July.
Ma'âdi.	
Two spp. unidentified.	LIBELLULIDÆ.
	EMBIIDÆ.
<b>Embia</b> sp.	<b>Brachythemis leucosticta</b> , BURM.
Maghâgha, Ma'âdi, Gîza, Shûbra.	Widely distributed.
All the year.	May to September.
<b>Embia</b> sp.	<b>Trithemis annulata</b> , P. DE B.
Itâî el Barûd.	Common everywhere.
April.	All the year.
	CROCOTHEMIDÆ.
	<b>Crocothemis erythræa</b> , BRULLÉ.
	Abundant everywhere.
	All the year.
	DIPLOCODES
	<b>lefebvrei</b> , RAMB.
	Kharga Oasis, Nag' Hamâdi, Ma'âdi,
	Suez.
	July to September.
	ORTHETRUM
	<b>trinacria</b> , SELYS.
	Siwa Oasis, Beni Mazâr, Suez,
	Faraskûr.
	June to November.
	ORTHETRUM
	<b>chrysostigma</b> , BURM.
	Kharga Oasis, Gîza, Suez.
	July to September.
	ORTHETRUM
	<b>farinosum</b> , FÖRST.
	Ma'âdi, Alexandria.
	June and July.
	ORTHETRUM
	<b>sabina</b> , DRURY.
	Suez.
	July.

AGRIONIDÆ.

**Ischnura senegalensis**, RAMB.

Abundant everywhere.

April to October.

**Pseudagrion torridum**, SELYS.

Widely distributed.

March to September.

Three spp. unidentified.

EPHEMERIDÆ.

Five spp. unidentified.

MYRMELEONIDÆ.

**Helicomitus barbarus**, L.

Alexandria, Barrage.

July.

**Myrmeleon cephalotes**, KLUG.

Wâdi Hôf, Heliopolis, Tel el Kebir.

August and September.

**Myrmeleon hyalinus**, OL.

Widely distributed.

April to July.

**Myrmeleon murinus**, KLUG.

Common everywhere.

April to September.

**Myrmeleon tenellus**, KLUG.

Ma'âdi, Suez.

June to September.

CEPHIDÆ.

**Cephus tabidus**, F.

'Ezbet el Nakhl, El Qalag.

March.

SIRICIDÆ.

**Sirex gigas**, L.

Cairo.

April and May.

Myrmecælurus latus, KLUG.

Ma'âdi, Barrage.

May to October.

**Nesoleon invisus**, NAVAS.

Ma'âdi, 'Ein el Shams, Mariût.

May to October.

**Creagris cinerascens**, NAVAS.

Ma'âdi, Suez, Mallaha, Mariût.

April to August.

Five spp. unidentified.

NEMOPTERIDÆ.

**Nemoptera** sp.

Maghâgha, Ma'âdi.

June and July.

MANTISPIDÆ.

**Mantispa** sp.

Ma'âdi.

June to October.

HEMEROBIDÆ.

**Chrysopa vulgaris**, SCHN.

Abundant everywhere.

All the year.

**Hemerobius** sp.

Ma'âdi.

March.

PHRYGANEIDÆ.

Two spp. unidentified.

HYMENOPTERA.

TENTHREDINIDÆ.

**Allantus syriacus**, ANDRÉ.

Wâdi Hôf.

March.

CHALCIDIDÆ.

**Sycophaga sycomori**, LOW.

Common everywhere.

January to February and again in August and September.

**Philotrypesis ficus caricae**, WESTW.

Giza.

January.

**Leucospis miniata**, KLUG.

Sennûres.

June.

**Leucospis** sp.

Mariût.

May.

**Chalcis brevicornis**, KLUG.

Widely distributed.  
March to July.

**Chalcis pubescens**, KLUG.

Embâba, Cairo.  
June to August.

**Chalcis unicolor**, RAD.

Marg.  
September.

**Chalcis** sp.

Roda.  
August.

**Dirhinus excavatus**, DALMAN.

Roda, Sennûres.  
May and August.

**Podagrion pachymerum**, WALK.

Ma'âdi, Shûbra.  
June and August.

**Cheiropachys colon**, L.

Shibîn el Qanâter.  
November and December.

**Pteromalus** sp.

Kharga Oasis.  
September to November.

**Eurytoma**, three spp. unidentified.

**Isosoma** sp.

Tura.  
February.

Seventeen spp. unidentified.

EVANIIDÆ.

**Evania appendigaster**, L.

Cairo and district, Alexandria.  
June to September.

**Evania dimidiata**, F.

Ma'âdi, Benha, Barrage, Faraskûr.  
July to September.

**Gasteruption (?) granulithorax**,

TOURN.  
Egypt.

BRACONIDÆ.

**Vipio desertor**, F.

Ma'âdi, 'Ezbet el Nakhl, Alexandria.  
May to August.

**Vipio** sp. nr. **contractor**, NEES.

Mariût.  
March.

**Vipio** sp.

Ma'âma.  
June.

**Bracon fastidiator**, F.

Cairo, Edfina.  
June and November.

**Bracon pectoralis**, WESM.

Mazghûna, 'Ezbet el Nakhl, Barrage.  
May.

**Rogas kitcheneri**, DUDGEON and GOUGH.

Widely distributed.  
July to January.

**Sigalphus thoracicus**, CURTIS.

'Ezbet el Nakhl.  
May.

**Chelonella sulcata**, NEES.

Widely distributed.  
November and December.

**Apanteles ruficrus**, HALIDAY.

Cairo, Shûbra, Tanta, Zagazig.  
April, May, and December.

**Apanteles** sp. (?) **hoplites**, RATZ.

Shibîn el Kôm, Kafr el Dawâr.  
October and November.

**Microplites** sp. nr. **ocellatæ**, BOUCHÉ.

Nawa.  
April.

**Microplites** sp.

Kafr el Dawâr.  
July.

**Agathis tibialis**, NEES.

Mahalla el Kubra.  
November.

**Aphidius brassicæ**, MARSH.

Damanhûr.  
April.

**Zele nigricornis**, WALK.

Minia, Tura, Ma'âdi, Qaliûb, Suez.  
March to November.

Seven spp. unidentified.
